Laminating Film

Xerox Wide Format Laminating Film

Laminating Film

High quality PVC Cold-Lam ‘pressure sensitive’ laminates designed to finish and protect digital prints. Xerox laminate has a solvent-acrylic adhesive perfect for long life indoor / outdoor applications and a silicon release liner for easy handling. Available in a variety of surfaces.

125 mic Cold Lam Laminate Film - Crystal

A premium PVC lamination film, heavily embossed with a sand grain or crystal surface texture for an excellent non-glare finish. This 125 micron film gives scratch-resisting protection for a variety of large format exhibition & display graphics such as pop-up and roll-up banner stands. The film also includes a UV inhibitor. Backed with a PE coated paper liner..

Part No.	Thickness	Finish	Reel Length	Width	Rolls per Pack
023R02567	125 mic	Crystal	100 m	880 mm	1
023R02568	125 mic	Crystal	100 m	1040 mm	1
023R02569	125 mic	Crystal	100 m	1300 mm	1
023R02570	125 mic	Crystal	50 m	1540 mm	1

80 mic Cold Lam Laminate Film - Matt & Gloss

Best quality, monomeric PVC film with a high-clarity solvent adhesive to bring images to life. The face film is 80 microns, with a smooth surface available in a choice of two finishes: matte, and high gloss. Ideal for any indoor or outdoor graphics application to enhance and protect printed images on a wide range of substrates, and adds bulk and thickness to make prints more resilient in handling. Particularly matched to Xerox standard self adhesive vinyls as the material characteristics match closely, but suitable for all general purpose cold lamination.

Part No.	Thickness	Finish	Reel Length	Width	Rolls per Pack
023R02575	80 mic	Gloss	100 m	1040 mm	1
023R02576	80 mic	Gloss	100 m	1300 mm	1
023R02577	80 mic	Gloss	50 m	1370 mm	1
023R02578	80 mic	Gloss	50 m	1540 mm	1
023R02579	80 mic	Matte	100 m	1040 mm	1
023R02580	80 mic	Matte	100 m	1300 mm	1
023R02600	80 mic	Matte	50 m	1370 mm	1
023R02581	80 mic	Matte	50 m	1540 mm	1

80 mic Cold Lam Water based Adhesive

80 micron PVC over laminate film with water based adhesive featuring three finishes. Crystal texture for scratch protection , matt satin for a non reflective print surface, high gloss for vibrant polished graphics. Suitable for indoor & outdoor graphics with a 3yr lifespan.

Part No.	Thickness	Finish	Reel Length	Width	Rolls per Pack
023R02855	80 mic	Crystal	100 m	880 mm	1
023R02856	80 mic	Crystal	100 m	1040 mm	1
023R02857	80 mic	Crystal	100 m	1300 mm	1
023R02858	80 mic	Crystal	50 m	1530 mm	1
023R02863	80 mic	Gloss	100 m	1040 mm	1
023R02864	80 mic	Gloss	100 m	1300 mm	1
023R02865	80 mic	Gloss	50 m	1370 mm	1
023R02866	80 mic	Gloss	50 m	1530 mm	1
023R02859	80 mic	Matt Satin	100 m	1040 mm	1
023R02860	80 mic	Matt Satin	100 m	1300 mm	1
023R02861	80 mic	Matt Satin	50 m	1370 mm	1
023R02862	80 mic	Matt Satin	50 m	1530 mm	1

Drywipe Polypropylene Over-Laminate Film

A clear, glossy polypropylene film for full protection in drywipe applications over an expected life of up to 12 months. The adhesive is permanent and formulated to resist oxidation and bleaching, protected on the roll by a PE-coated release paper. This film is intended for use indoors but can also be used for short-term outdoor purposes.

Part No.	Thickness	Finish	Reel Length	Width	Rolls per Pack
023R02592	50 mic	Gloss	100 m	1040 mm	1
023R02593	50 mic	Gloss	100 m	1300 mm	1

125 mic Floor Graphic Over-Laminate

A clear, monomeric plasticised PVC film with a matt surface embossed with a sand grain texture designed as an economical over-laminate for floor graphics. Water-based pressure-sensitive, permanent adhesive, resists oxidation and bleaching. This film can give indoor floor graphic life of up to 12 months. Short-term outdoor use is also possible.

Part No.	Thickness	Finish	Reel Length	Width	Rolls per Pack
023R02587	125 mic	Sandgrain	100 m	880 mm	1
023R02588	125 mic	Sandgrain	100 m	1040 mm	1
023R02589	125 mic	Sandgrain	100 m	1300 mm	1
990L07211	125 mic	Sandgrain	100 m	1530 mm	1

Polyester Anti-Graffiti Over-Laminate

An optically clear polyester film with a special surface treatment to facilitate easy removal of graffiti. This film also has the highest levels of UV stability and protection. The permanent acrylic adhesive gives excellent bond performance even in extreme outdoor conditions.

Part No.	Thickness	Finish	Reel Length	Width	Rolls per Pack
023R02594	50 mic	Gloss	100 m	1300 mm	1

Mount Film

Clear 12 micron polyester film with water based, permanent, pressure sensitive adhesive applied to both sides, for general mounting of a wide range of graphics print media. This film is intra-spirally wound with a double-sided, PE-coated paper liner to enable smooth unwinding and ease of use. Mainly for indoor purposes, but short-term use outdoors is also possible.

Part No.	Thickness	Reel Length	Width	Rolls per Pack
023R02595	12 mic	100 m	1040 mm	1
023R02596	12 mic	100 m	1300 mm	1
023R02597	12 mic	100 m	1530 mm	1

Removable Window Mount Film

ClearPVC coated on one side with a water-based removable, repositionable adhesive and, on the other, a solvent-based permanent adhesive. The permanent adhesive is to mount to the graphic and the repositionable side is for application to a window. The repositionable adhesive is protected by a liner embossed with a micro grid pattern which transfers a pattern into the adhesive. This eases evacuation of air to leave the image free of bubbles or wrinkles with no need for wet application. Apart from window face-mounting where this film is applied to the face of the graphic, this film can be used to rear-mount graphics onto substrates other than windows. **Applying the smooth permanent adhesive side to the rear of the print and the textured side to the mounting surface.**

Part No.	Thickness	Finish	Reel Length	Width	Rolls per Pack
023R02598	50 mic	Removable	50 m	1040 mm	1
023R02599	50 mic	Removable	50 m	1300 mm	1
