

Environmental Policy

Style Office Solutions Ltd recognises that good management includes environmental issues and matters and will ensure that the protection and the prevention of pollution are part of all decisions, policies and practices.

As part of our quarterly management meetings & supplier review, we will review environmental issues such as

- Site Waste Management
- Product packaging
- Prevention of pollution
- Complying with legal and other requirements
- Objectives and targets

Style Office Solutions Ltd will endeavour to work towards the following objectives.

- Comply as a minimum with all relevant environmental legislation, regulations and industry code of practice.
- Ensure that the policy is understood by all employees and implemented at all levels in the company through appropriate training.
- Promote waste minimisation by recycling or finding other means of product usage.
- Prevent contamination of land or water arising from company operations
- The Primary environmental concerns include the management of waste, energy use and recycling of paper and cardboard.
- Style Office Solutions Ltd is working to gain our ISO 14001 certificate and will work towards maintaining efforts to achieve and improve.

This policy and the way it operates, is updated as required and will be reviewed annually.
