Height Adjustable

INTRODUCTION

A collection of height adjustable and electric sit/stand desking to provide a flexible, healthier working environment.

At Imperial we pride ourselves in manufacturing quality office furniture.

HEIGHT ADJUSTABLE

HEIGHT ADJUSTABLE

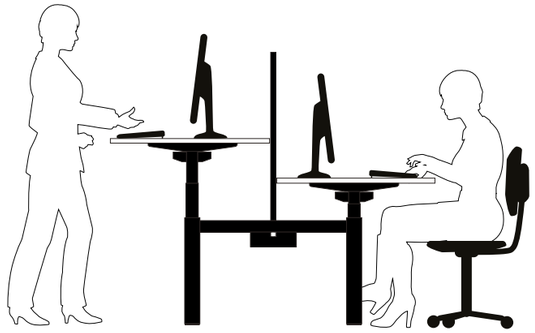

A selection of cranked handle height adjustable desk solutions are available to complement standard desk ranges. Available in both 600mm and 800mm deep with Cantilever, Goalpost and Hoop leg designs.

FREEDOM BENCH

SIT/STAND DESKING

There was a time when sit-stand desks were a curiosity seldom seen inside a regular office environment. That's changed, largely in part to research showing that the cumulative impact of sitting all day for years is associated with a range of health problems, from obesity to diabetes to cancer. The average office worker spends 5 hours and 41 minutes sitting each day at his or her desk, some describe this problem with a pithy new phrase that's undeniably catchy, if somewhat exaggerated, "Sitting is the new smoking."

Sit-stand desks increase focus, alertness and activity levels. These all support each other. When standing it is easier to release restless energy. Combine that with good circulation, stable blood sugar and an active metabolism and it is easier to focus on the task at hand. Many authors and statesmen throughout the centuries who swear by working at a standing desk have claimed that it helps get the creative juices flowing.

PIEZO Anti-Collision Technology

Freedom electric actuators are fitted with PIEZO as standard. PIEZO is a hardware based anti-collision solution from LINAK. The solution is based on a PIEZO sensor that has been completely integrated in the lifting column – without visually altering the desk design. The built-in PIEZO sensor reacts to any obstruction when raising or lowering the desk, then halts and reverses to avoid collision.

User Well-Being - Desk Control Software

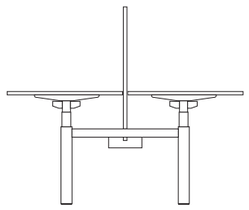

Desk Control™ is a software desk panel for use in all types of office desks. The Desk Control software is installed on your computer (PC or MAC) making the use / adjustment of your desk intuitive in your daily work. The software program contains the typical desk panel features like up-down adjustment, up to 3 memory positions, and height read-out. Additionally, the program reminds you to adjust your desk, counting the time standing as well as the calories burned. The intervals are self-elected making Desk Control a very personal tool. Simply connect the FDCC cable between your control box and your computer and install the free software supplied.

Freedom bench offers total flexibility by allowing individual desktop adjustment across any bench configuration. This allows a 4 person bench cluster to accommodate 4 different options of desktop adjustment. Users can also replace adjustment frames at a later date to suit specific requirements.

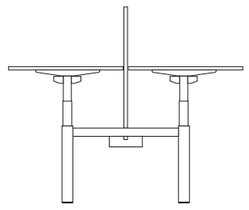

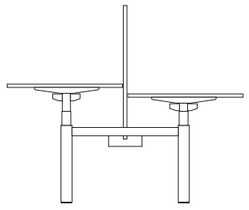

The Freedom system incorporates 2 fixed height options and 3 height adjustable actuator options as standard.
These include FIXED (725 or 1100mm incl. desktop), RATCHET (655-795mm inc. desk top), MANUAL CRANK (655-1005mm incl. desk top) and ELECTRIC (600-1260mm incl. desk top) and the system will accommodate desktops ranging in width from 1200mm up to 1800mm and 800mm in depth, giving an overall bench depth of 1600mm.

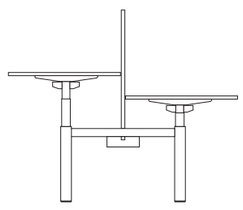

725mm Fixed Height

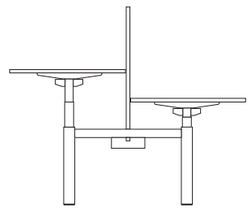

1100mm Fixed Height

655-795mm Ratchet

655-1005mm Manual Crank

600-1260mm Sit/Stand Electric

Individual Freedom electric desks are one of the most stylish, height adjustable and are designed and manufactured in the UK offering a full 5 year guarantee.

With an adjustment between 600mm to 1260mm using the electric actuator option, this gives Freedom the TRUE Sit-Stand solution.

Freedom Lite is a more cost effective option of Sit/Stand electric desking. A choice of desk shapes and sizes are available to suit your requirements

Freedom Lite desks have an electric height adjustment between 710mm and 1210mm.

Freedom Lite is also available as a single or 2 piece corner workstation to provide additional desk space.

Floor standing screens provide extra privacy for height adjustable desk configurations.
